1. Receipt is acknowledged of the amendment to the specification and remarks filed September 29, 2004.

2. Claims 1-17 are pending in this application.

Claim 18 has been cancelled.

3. The rejections of claims 6,7 and 11 have been withdrawn in view of the remarks and supporting evidence found on the Internet for the claimed subject matter.

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claim 17 remains rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention as to enabling written disclosure for the expression "latakasturi water".

It appears that this expression is not enabling based on the instant disclosure or in view of the remarks. Applicant has changed the spelling in the remarks, which will positively not be accepted. Applicant may argue support for the expression submitted in the specification and the claim but this examiner will not accept any other variations of the written disclosure.

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 18 stands rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Vague and indefinite as to the scope of the expression "latakasturi water". Applicant is requested to submit information as to the scope of the required product e.g. catalogue showing definite scope for the claimed subject matter.

Applicant may overcome the above rejection by submitting a CIP containing enabling subject matter otherwise Applicant will have the opportunity to go to the Board of Appeals to overcome the present rejection. Applicant may also cancel the claimed subject matter so that the instant application would be allowed.

6. **Claims 1-16 are allowed.**

Art Unit: 1651

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
